

# WILDFLOWER

## 2020 PINOT GRIGIO

WESTERN AUSTRALIA

**Wildflower Western Australia** There are over 12,000 species of wildflowers that grow in Western Australia, over half of which cannot be found anywhere else on earth. The native bush surrounding our vineyards abounds with these vivid blooms providing a distinctive wine landscape like no other.

**Tasting Note** Just like the region's flora, this wine is distinctly Western Australian - sourced from Pemberton, this Pinot Grigio is lively, aromatic and dry, boasting detailed flavours and fruity notes of pear and apple, complemented by a delicious and refreshing crispness.

<b>Technical</b>	<b>Notes</b>	Alc/vol:	12.5%
pH:	3.38	RS:	3.0 g/L
TA:	7.1 g/L	CLOSURE:	Screw Cap

**2 of 12,000** Slender smokebush - *Conospermum huegelii* *Conospermum huegelii* (previously known as *Conospermum intricatum*) is commonly known as Slender smokebush.

*Conospermum* belongs to the family Proteaceae. There are 53 species of *Conospermum* in Australia of which 42 occur in Western Australia. *Conospermum huegelii* is endemic to Western Australia.
